# About Steeves

1-800-318-1119 | www.steeves.ca

Steeves Agencies first opened its doors in 1980 as a Manufacturer's Agent for specialty hardware, selling nuts, bolts, screws, rivets and an assortment of concrete anchors to manufacturers and distributors across Western Canada. Wilf Steeves founded the company, and believed that customers were far more than just numbers on a sales report. It was his personal approach to helping customers that made this company successful. To this day, Steeves Agencies is family run, and proud to be 100% Canadian owned.

Over the years our company has evolved into one of Western Canada's largest distributor of specialty access hardware. Although our product offering has changed a little since the 1980's, our approach is still the same: we want delighted customers!

Now, almost 30 years later, Steeves Agencies is still striving to be your first choice for specialty access hardware. We're ISO 9001 Registered and we have factory certified salespeople to help with your technical questions. We're here to help! We can stock anything you need in Winnipeg for quick delivery, and are flexible enough to meet any special requirements you may have.

Call us today to see if there's a fit between your company and ours! We'd love to meet you and discuss your specialized requirements.

Thanks for your interest! We hope you find what you're looking for and we look forward to serving you in your specialized field.

Sincerely,  
STEEVES AGENCIES  
*Brian Steeves*

# Electronic Access

1-800-318-1119 | www.steeves.ca

**If your enclosure, cabinet, toolbox or cart requires highly secure yet customizable access, an electronic solution might be right for you. We have completely self-contained systems that require no special programming or wiring and more complex systems that can be integrated into existing security systems. We also carry all of the parts needed for a complete system: cables, manual override options, actuators, keepers, and much more.**

Quarter-Turn Receptacles

Quarter-Turn Retainers

# Compression Latches

1-800-318-1119 | www.steeves.ca

Compression latches are used in applications where sealing of the enclosure is required or where protection from the elements is an issue. Available in fixed or adjustable compression, compression latches come in all shapes, sizes, and finishes. We also have hardware that is NEMA and IP rated! Plus, many of our latches have been registered at [www.nsf.org](http://www.nsf.org) for use in food service equipment!

# Drawer Slides

1-800-318-1119 | www.steeves.ca

From computer racks to mobile toolboxes, drawer slides are an important design element whenever ease of access is required. Our drawer slides are available from stock, in sizes ranging from 10" to 36". Even if you don't see the slide you need here, we have access to several manufacturers who can either source it or design it for you. Steeves Agencies is your source for slides!

# Gaskets and Seals

1-800-318-1119 | www.steeves.ca

Available in a wide range of materials, most of our gaskets and seals are available with short lead times.

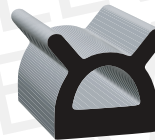

Need a custom profile? No problem! Send us a drawing of the shape(s) you need, and we'll put our suppliers to work for you. Whether you need EMI shielding or just a water-resistant seal, we can get the profile you need.
